1. Executive Summary

The present document contains a contextual and situational description and benchmark of events, which aims at supporting the dissemination process within the FutureID project.

For this purpose the potentially relevant events in the areas touched by the FutureID project, such as Identity Management, Federation Technology, Risk Management, eGovernment, Standards, Smart Cards, Payments and mCommerce have been identified and assessed in order to allow an informed decision which events should be attended by FutureID partners and utilized for dissemination purposes.
