Access to this document does not grant any right or license on the document or its contents. This document or its contents are not to be used or treated in any manner inconsistent with the rights or interests of the FutureID Consortium or the Partners detriment and are not to be disclosed externally without prior written consent from the FutureID Partners.

Each FutureID Partner may use this document in conformity with the FutureID Consortium Grant Agreement provisions.

Abstract

This Document provides a description of test cases implemented for the FutureID client during the implementation phase. The following components of the FutureID client are in focus of testing of Browser integration - PKCS#11 module, Internationalisation Module, and Whitelist Filter. In addition to testing the Browser Integration, specific requirements were evaluated to verify if they are fulfilled with the FutureID client pilot implementation.
